

Reference Concept

Machine Learning is a subset of artificial intelligence that allows systems to learn patterns from data and improve performance without being explicitly programmed.

Student Transcription

World of AI first of all how many people like know what is AI so AI yes AI is artificial intelligence But what is artificial intelligence right so I'll put it simply artificial means something that's not natural right Intelligence means something that can take a certain information and use their information So artificial intelligence means something that's man made a man made intelligence a man made brain So we'll be diving into that little your man made brain see a lot of people say AI this AI that But we actually forget how good AI is and what can it do like it's such a big deal Okay, I'm not gonna go to end up then on right now. We will be in soon. I want to know how do you guys use AI? Everyone watches YouTube right if you YouTube open my YouTube you will see AI stuff why because That's what I like right My interest there is here

Audio Visualization

Evaluation Summary

Metric	Value
Semantic Similarity	0.36
Filler Word Ratio	0.07
Pause Ratio	0.24
RMS Energy	0.16
Audio Confidence Score	7.6
Final Score	61.1/100
Understanding Level	Moderate
