

Project Initialization and Planning Phase

Date	06 July 2026
Team ID	
Project Name	Voice Based Concept Understanding Analyser
Maximum Marks	3 Marks

Define Problem Statements :

This project focuses on developing a Voice-Based Concept Understanding Analyzer that evaluates a student's spoken explanation of a concept. Many students struggle to assess whether they truly understand a topic, as they lack proper feedback. This system uses AI to analyze voice input, identify knowledge gaps, and provide feedback. The goal is to improve learning outcomes by helping students gain confidence and clarity in their understanding.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student learning new concepts.	Explain concepts clearly using my voice.	I am not sure if I fully understand them.	I do not get feedback on my explanations.	Confused and unsure about my knowledge.
